

# Save the Whales!

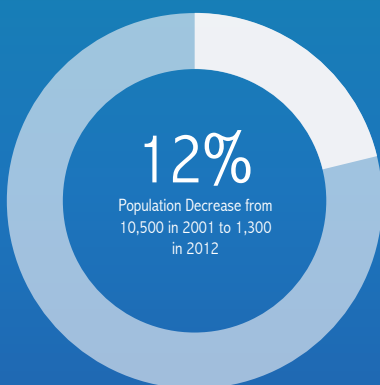

Grey Whales:

Fin Whales:

Bowhead Whales:

There are now close to 500 dead zones covering more than 245,000 km<sup>2</sup> globally, equivalent to the surface of the United Kingdom.

Land based run-off accounts for 80% of marine pollution

This causes the death of over 100,000 marine mammals annually

20% of the trash you throw away ends up in the ocean

## What can YOU do?

- Mind your carbon footprint and reduce energy consumption
- Make safe, sustainable seafood choices
- Use fewer plastic products
- Help take care of the beach
- Don't purchase items that exploit marine life
- Support organizations to protect the oceans
- Influence change in your community
- Travel the ocean responsibly
- Educate yourself about oceans and marine life
